Labor Party
Merge.

WILL OFFER BANNER
TO WISCONSIN SENATOR

In the Event He Declines, Henry
Ford May be Nomi-
nated.

(International News Service)
CHICAGO, July 13.—After two
days of bickering and negotiating be-
tween the minor political parties in
Chicago, the way was cleared here
shortly before noon for the birth of a
united third party, probably tonight.

A joint convention embracing the
Committee of 48, the American Labor
Party, the Single Tax party and rep-
resentatives of the Non-partisan
league and smaller organizations
probably will be held tonight at which
candidates for president and vice
president will be nominated and a
platform adopted.

The agreement to meet in a joint
convention was made with the name
of the new party and the platform still
in doubt.

It was later announced in the 48
convention that agreement had been
reached on all but three planks in the
platform, relating to the Plumb plan,
to the imposition of a capital tax and
to the nationalization of mines.

The principle planks agreed on
were; no war save in the event of in-
vasion, without the direct vote of the
people; withdrawal of the United
States from further participation in
the league of nations and the treaty
of Versailles; lifting the blockade
against Russia; the right of self-de-
termination for all nations; democratic
control of all industries; election of
federal judges for four years, sub-
ject to recall; repeal of all espionage
and criminal syndicalist laws; full
political rights for all citizens, re-
gardless of race, color, sex or creed;
initiative, referendum and recall;
public ownership and democratic con-
trol of transportation; public own-
ership of other public utilities; pro-
tection of the right to strike; stop con-
trol from usurping power, especially as
to anti-labor injunctions; universal suf-
frage; abolish imperialism at home
and abroad; refuse war with Mex-
ico; recognition of the republic of Ire-
land; recognition of the soviet govern-
ment of Russia; embargo on arms and
ammunition to be used against Rus-
sians or Irish; bonus for soldiers by
capital tax; placing biggest burden
on war profiteers.

MAY RUN LA FOLLETTE

(International News Service)
CHICAGO, July 14.—Senator La-
Follette of Wisconsin will be the third
party's nominee for president, prob-
ably by acclamation, if there is a
third party. Such was the feeling
here today as the various political
conventions got under way, impatient
for the reports of their various com-
mittees. If LaFollette will not accept
the nomination, it may be Henry Ford.

NEGRO IS CHARGED WITH MURDER OF BOY; GUARD JAIL

(International News Service.)
MONTGOMERY, July 13.—Follow-
ing the shooting and killing of 15
year old Gordon Ogilvie and the
serious injuring of Walter Gibbons, 14,
Race Berry, a negro farmer, in the
city jail here charged with the
crime. The jail is being carefully
guarded.

GERMANS DECLINE TO ACCEPT TERMS

Refuse to Cede Coal Demanded and Break
in Conference Impends.

(International News Service)
SPA, July 13.—A new crisis de-
veloped in the conference of allied
and German statesmen this afternoon,
when the Germans rejected the allies'
compromise proposal for coal delivery
to France. A break in the conference
is threatened tonight or tomorrow.

GERMANS ATTACKED

SPA, July 13.—A serious attack
upon members of the German dele-
gation attending the Spa conference
was narrowly averted today when the
Germans carried out a strategic re-
treat in a motor car.

The disturbance began when a Bel-
gian officer, whose treatment in a
German prison camp still rankled in
his mind, got into an argument with
a member of the German delegation.
The Belgian struck the German with
his fist and other Germans inter-
fered. A large crowd gathered and
was openly menacing the Germans
when they retreated.

Later it was revealed that Heri-
Stockblosser, correspondent of the
Wolff news agency, was injured in
the head. No effort is being made by
the Belgians to apprehend the guilty
ones.

NO FORMAL SESSION

SPA, July 13.—There was no formal
session of the Spa conference during
the morning. A plenary session of
the conference was scheduled for 4
o'clock this afternoon.

ARMY PISTOL USED TO SLAY WOMAN

(International News Service)
NEW LONDON, Conn., July 13.—
A new murder mystery was added to
the list now being worked on by the
police by the shooting of Mrs. Arthur
le Cordova, wife of a New York
broker and her chauffeur, Bernard Ge-
issler, on a lonely road near here to-
day.

Both had been shot and killed by an
army pistol, and police held the idea
that the chauffeur murdered Mrs. Cor-
dova and then killed himself.

NAMIE RELEASED FROM JAIL AGAIN ON 10,000 BOND

"Out again—in again" Namie,
charged with slaying a negro in De-
catu several months ago, is out of
jail again on \$10,000 bond.

His latest stay in the county pris-
on was of short duration. The su-
preme court overruled Judge Troup
in granting bail in the sum of \$10,-
000 and Namie went to jail, but a
telegram from the capital today held
up the defendant's incarceration and
Namie again was released on bail.

Boat Excursion Wednesday Night

Following the return today of the
Steamer Troxel from up river points,
w-a-r-e excursions were run at Bridge-
port and other places, announcement
was made that another excursion will
be run here tomorrow night, leaving
the bank street wharf at 8 o'clock.

Hera's orchestra will furnish the
music.

DECISION ON ROAD BOND PETITION TO AWAIT FINAL TOTAL TAX ASSESSMENTS

Amount of Bonds Will Be Based
On the Property Val-
uations.

PETITION PRESENTED
MONDAY AFTERNOON

More Than Two Thousand Sig-
natures Attached to the
Request.

The decision of the Board of Re-
venue of Morgan County on the peti-
tion for an election on the proposed
\$450,000 bond issue, probably will not
be made known until after the tax
books for the year 1920 are closed and
the total assessments made final. The
work will require nearly 60 days, it
is believed. The amount of the bonds
will be based on the total assess-
ments.

The road petition was presented to
the board yesterday afternoon by
Charles H. Eyster, president of the
Albany chamber of commerce, who
spoke in favor of it. He was follow-
ed by representatives of Wolfe's, Falk-
ville, Apple Grove, Ryan's Cross
Roads and other communities who
also urged the board to permit the
people of the county to vote on the
proposed bond issue.

John R. Sample, of the Hartselle
chamber of commerce, offered sev-
eral amendments to the original peti-
tion, changing the routes of certain
roads.

The petition filed by the local com-
mercial organization, carried more
than 2,000 signatures. For two weeks
they had been circulated in every beat
in the county and were signed freely.

THOUSANDS WILL ATTEND AUCTION OF LARGE TRACT

Several thousand people are expect-
ed to attend the biggest auction sale
in the history of North Alabama
when the new Garth Heights is sold
Wednesday by Col. Davis, of Fayette-
ville, Tenn., under the direction of
Penney and Whitman and Otto Mos-
bes, local realty dealers.

The Boys Industrial band, of Birm-
ingham, which will furnish the music
for the sale, will arrive here on the
accommodation tonight and several
band concerts will be given on the
prominent streets tonight.

A free barbecue, with Brunswick
stew and accessories, will be served
at noon on the grounds to all visitors.
For several weeks Col. E. D. Whit-
man, in charge of the culinary fea-
ture, and his assistants have been at
work on the menu and preparations
are being made to feed 3,000 people.

BORTON IS ELECTED PRESIDENT OF GOLF AND COUNTRY CLUB, REPORTS RECEIVED

Steps Taken For Beginning
Work on the Nine Hole
Golf Course.

ORGANIZATION MEET IS
HELD, BIG ATTENDANCE

Committee's Reports Show that
\$14,000 Already Has Been
Subscribed.

L. W. Borton was elected president
of the new Golf and Country club
at an organization meeting held last
night in the rooms of the Albany
Chamber of commerce. Other offi-
cers chosen were: Charles Kortrecht,
first vice president; J. L. Bibb, second
vice president; Henry R. Davis, secre-
tary; W. W. Fussell, treasurer. The
board of governors will be composed
of H. B. Beard, Paul Morrison, Clyde
Hendrix, Fred S. Hunt, W. E. Shack-
elford, Joseph Woods.

The meeting heard reports of the
site and stock subscription commit-
tees, the former being presented by
L. W. Borton and the latter by Char-
les Kortrecht. The site committee re-
commended the purchase of a 40-
acre tract just east of the corporate
limits of Albany from Bibb and Kor-
trecht. A letter from Mr. Hall, a Bir-
mingham golf expert, was read in
which it was stated that this site
could be improved much more cheap-
ly than any of the others which he
visited while here. The report of the
stock subscription committee showed
that 73 memberships had been se-
cured and that stock subscriptions and
membership fees total \$14,000. The
membership fee is \$50 for charter
members.

The meeting was presided over by
Col. Tennis Tidwell and Henry Davis
was chosen secretary. The attend-
ance was large and much enthusiasm
was manifested. It was voted to con-
tinue the membership campaign until
the required 100 members was ob-
tained.

Steps will be taken at once to in-
corporate the new organization and
at the completion of this formality the
active work of erecting the club
house and laying off a nine hole
course will begin. Preliminary to
this, the road leading from Grant
street to the grounds will be repaired
and put into first class condition. The
site chosen is one of exceptional
beauty and the club house will be
erected on the high knoll which com-
mands a view of the entire tract.

The canvassing committees were
busy again today and expected to
secure the remaining 27 members in
a very short while. After the list is
closed, no new members will be ac-
cepted until there is a vacancy caused
by death or resignation.

The following is the membership
 roster to date:

HANDLE FACTORY, \$25,000 COMPANY LOCATES ON RIVER BANK IN DECATUR

Work of Factory Erection Has
Been Started by Large
Crew.

INCORPORATION PAPERS
TO BE FILED WEDNESDAY

Associated in the Enterprise Are
Several Well Known
Manufacturers.

Work of factory erection started
today and papers of incorporation will
be filed Wednesday for the Peters-
Scanlon Handle company, new \$25,-
000 factory which has been located
on a river site near the present loca-
tion of the Texas Oil company's dis-
tributing station.

The site includes half a block, near
the river bank and switch tracks. A
crew of workmen is erecting the
main mill, warehouses and kilns.

Associated in the new company
are: W. H. Scanlon, a former resi-
dent of Albany-Decatur, later of Mem-
phis, Tenn., where he was employed
with the Kelly Handle company; C.
W. Peters, of New Albany, Ind.;
Henry Mattocks, of Nashville, Tenn.,
H. C. and Clayton Boggs, of Albany-
Decatur.

Mr. Scanlon will have charge of
the production end of the company,
while Mr. Peters will be sales man-
ager of domestic territory and Mr.
Mattocks will head the export de-
partment. They have had many
years experience in the handle man-
ufacturing business and are consid-
ered experts.

Much of the raw materials, from
which the finished product will be
made at the local plant, will be si-
pplied from the Boggs farm in Lin-
coln county, where workmen today
began cutting 500 cords of wood. An-
nouncement was made, however, that
the plant will provide a ready market
for all good hickory and white oak
timber cut in this section.

J. P. Wade, 80 Working Twelve Acre Crop, Wow!

Morgan County must take first
rank as a health resort.

J. P. Wade, aged 88 years, is
working a twelve acre crop alone
at his home near Kitchen's Mill,
this county.

Mr. Wade's health seems to be
the best despite his passage long
ago of the allotted three score and
ten. He attributes his long life to
good climate, and good care
of himself.

CHAMBER TALKING PLANS FOR BIGGEST 'BOOSTER TRIP' IN ALBANY'S HISTORY

Date Will Probably be During
the Last Week in
August.

BANQUET MEETING TO
BE HELD MONDAY NIGHT

Detailed Report On Work of
Present Administration
to be Made.

Plans for one of the largest booster
trips ever carried out in the Tennessee
Valley, or perhaps the entire South
were discussed at a meeting of the
officers and directors of the Albany
Chamber of Commerce held last night.
While the date of the trip has not
been fully decided, it is understood
that it will be made the last week in
August.

All plans will be completed at a
banquet meeting to be held in the au-
ditorium of the Chamber of Com-
merce on next Monday night, at which
meeting, the officers and directors
urge the attendance of every member
and every business man in the city.
This meeting promises to be the best
general membership meeting held dur-
ing the administration of the present
officers, as in addition to the plans
for the booster trip, a detailed re-
port will be made on what the Cham-
ber of Commerce has accomplished
this year and plans for the future.
The banquet at this meeting will be
served by prominent ladies of Albany
and it is needless to say that it will
be very enjoyable to everyone at-
tending.

Many other important matters were
discussed at the meeting last night by
the officers and directors, the most
important of which has been outlined
above.

HARDING SEES "NICK"

MARION, July 13.—Senator W. G.
Harding, republican nominee, after
conferring this morning with Con-
gressman Nick Longworth, went into
retirement to work on his acceptance
speech.

tion whether W. J. Bryan and his fol-
lowing will ultimately support the
democratic ticket was the one subject
that occupied most of the attention of
the conference held yesterday between
Governor Cox, Secretary Franklin
Roosevelt, his running mate, and
Judge Timothy Anaberry, of Wash-
ington, Governor Cox's political ad-
viser.

The candidates meanwhile express-
ed themselves as particularly pleased
with the party harmony outlook.

Bolsheviks Continue Their Vic-
torious Sweep Towards

THREE HEAVY BATTLES
ARE BEING WAGED

Fighting is Now Getting Close
to the Famous Hinden-
burg Line.

(International News Service.)
LONDON, July 13.—It is learned
from a source close to Premier Lloyd
George that the soviet government
has agreed to an armistice with
Poland.

(International News Service.)
LONDON, July 13.—The Russians
have occupied the important city of
Minsk on the northern end of the
Russo-Polish battle front, according
to a soviet communique.

The Russian communique claimed
the capture of two strategic cities,
Moldetchno and Seentsiany. It was
reported that the Poles have lost the
fortress of Brest-Litovsk, but this
was denied at the Polish legation.

THREE BATTLES RAGE

(International News Service)
BERLIN, July 13.—Three heavy
battles are raging on the northern
end of the Russo-Polish battlefield,
according to news from Warsaw to-
day.

The Poles are retreating according
to plans and are offering stiff rear
guard resistance to the Russians. The
fighting is now getting close to the
old Hindenburg line, established by
the Austro-Germans in 1915.

RECRUITING NOW ON THE INCREASE

TWO MORE MEN JOIN THE COL-
ORS AT LOCAL ARMY
STATION

During the month of June, 177
men were accepted for enlistment in
the Alabama district, the largest
number ever accepted in any one
month. Great gains are being made
throughout the United States in re-
cruiting men for the regular army.
Late in May the average enlistments
for the army in the United States
were about 1600 per week; for the
last week in June the number of men
enlisted was 2481, and the recruiting
officers expect enlistments to reach
3000 per week.

The material increase of pay au-
thorized by the Army Reorganization
Act, it is said, had much to do with
the gains, but credit is also given
to the liberal provisions of the act
permitting newly enlisted men to
choose their assignments. The act
permits original enlistments for one
or three years at the discretion of the
recruit, and provides a bonus for ex-
service men to be paid on re-enlist-
ment and for recruits who enlist for
three years to be paid on discharge.
Colonel Saffarans, the recruiting
officer, in discussing the material in-
crease in the enlistments in the army
states that the public has begun to
realize that the army offers to its
soldiers a great deal more than the
pay authorized by law. It offers
them enrollment in the greatest train-
ing school in the world in which they
can acquire a trade or craft, for the
army must train its own men to do
its work, and where they may take
up such academic studies as they de-
sire in the army schools. Military
training builds character, develops
leadership, and fits the individual for
his duties as a citizen.

Those enlisting here for the past
week were: Eugene H. Strane, At-
hens, Ala. and Ollie Branger, At-
hens, Ala.

THE GOLF AND COUNTRY CLUB

It is now practically assured that Albany and Decatur will have a golf and country club. The enthusiasm shown at the organization meeting held last night, the reports of progress by the membership and stock subscription committees and the personnel of the officers elected made it plain that success is in sight. While the ultimate goal of 100 members and a paid up capital stock of \$20,000 is just a little bit ahead, the rough sledding stage has been passed. It will be only a short time now until the physical necessities, such as the laying off of the golf course and the building of a club house, will begin. After that, the future of the organization will rest with the members, each one of whom must do a full part to make the club an institution of real value and worth.

Citizens of the Twin Cities will feel a certain bit of civic pride in the realization of this dream of some years standing. It has been a bit humiliating to reflect that other communities and municipalities, such as Anniston, Gadsden and Rome, Ga., have maintained clubs of this kind while we have not, giving them a more advanced claim to recognition as budding metropolises. And it is pleasing to reflect that their spirit of progress is to be matched.

The mere fact that golf will be played at the new club does not mean that its activities will be confined to

this healthful sport. The club will add much to the social life of its members, and will also be a contributing factor towards the correct advertising of the queen cities of the Tennessee Valley.

THE UNFORTUNATE PLIGHT OF POLAND

Ever since that memorable night when "Kosciusko fell," the sympathy of the world has been with Poland. Whether this sympathy was misplaced is rather difficult to fathom from this distance, for the average citizen is inclined to get all wrought up over certain things that appeal to his imagination and to become a partisan of peoples and nations that are currently reported to be downtrodden. There is a tendency to ignore the other side of the question and to take into consideration the well established fact that success usually comes to those who deserve to succeed.

Whether Poland has been wronged or not, the allied nations would have been very much delighted had her warriors been able to drive the Bolsheviks out of Europe. At the same time, it must be admitted that the followers of Paderewski and Grabski displayed but little prudence in attacking a foe numerically much superior, and a very scant regard for peace by plunging into war at the shank of the world struggle. Certainly the allied conference acted wisely in refusing further succor to the Warsaw government until the Polish armies were back in the territorial boundaries of Poland.

It would be a crime against civilization to permit the reds to extend their sphere of influence, but this does not mean that the allies must chip in on every military expedition that is conceived by some overzealous war lord. What the world demands today is peace, and that peace can only come when all nations are content to sheathe their swords or the League of Nations makes it plain that no more fighting will be tolerated.

Just now, it is enough to wish the Poles well and to advise them to bring their armies back home. If they disregard this friendly prompting, then they must fight their own battles and gracefully accept the result.

Members of the new third party who favor soviet government in America may see stars and wear stripes but they never will have a proper conception of "Old Glory."

David Lawrence, a clever republican press agent, has figured it out that the new third party may defeat Harding by gumming up three or four doubtful states. His dope sounds like an advance alibi.

"Physicians had given my sister up to die; they wanted to operate for gall stones, but she was too weak and could only talk in whispers. Amusements
MISS TALMADGE CAN COOK AS WELL AS ACT AT THE PRINCESS TODAY

Constance Talmadge proves that she can cook as well as act in her latest comedy-drama, "Two Weeks," taken from Anthony Wharton's play, "At the Barn," which will be shown at the Princess theatre today.

As a chorus girl with but little money she is forced to keep house for herself and do her own cooking. And Miss Talmadge does it, as the screen will show. It may be beyond the province of mere man, but any skilled housewife will tell you that the charming actress knows the business of cooking as well as how to make people laugh. In fact she is quite as proud of her household accomplishments as she is of her screen talent.

"Two Weeks" is the story of a chorus girl who leaps to fame, and who, to escape the importunities of a too rash lover, flees to the home of three crusty bachelors, where she upsets all rules and traditions and vanishes her way through their hard shells and into their hearts.

Rub-My-Tism is a powerful antiseptic; it kills the poison caused from infected cuts, cures old sores, tetter, etc. (Adv.)

Boat Excursion**WEDNESDAY NIGHT, JULY 14****Boat Leaves Bank Street Wharf at 8 P. M.****GOOD MUSIC REFRESHMENTS****Round Trip Tickets \$1.00****FOR TWENTY YEARS HE HAS SUFFERED FROM RHEUMATISM**

Has Spent Five Hundred Dollars Seeking Relief and Now Declares Drecto Has Done More Good Than Anything

"I have suffered for twenty years from rheumatism of the joints, and no one who had this dread disease can realize the tortures I've gone through. I have spent five hundred dollars on medicine seeking relief. I have taken everything recommended to me as being good for my trouble, but all have failed.

"I saw the new medicine Drecto advertised so gave it a trial, and it has done me more good than all of the other medicines I have taken put together.

"I most earnestly recommend Drecto to those who have rheumatism, and urge them to go at once and get a bottle and begin the treatment. Don't hesitate but take my word for it. Drecto certainly has proved its merit in my case." These are the words of the Rev. J. J. Snow, a well-respected colored minister, who resides on his own farm just outside of Montgomery, Ala.

All druggists now sell Drecto and it is being especially introduced in Albany by Albany Drug Co.; in Decatur by the Hilda Drug Co.—Adv.

WORN NERVES

Nervous troubles, with backache, dizzy spells, queer pains and irregular kidneys, give reason to suspect kidney weakness and to get the remedy that has helped your neighbors.

Mrs. H. S. Speck, 302 W. Pond St., Decatur, Says: "One of my friends who had been in the condition I was in from kidney trouble urged me to use Doan's Kidney Pills. I had no faith in them but took them to please her and I got a box at the Owl Drug Co. I continued taking them and when I had finished four boxes I felt as well as ever. I was really surprised. This is saying a great deal for Doan's Kidney Pills as no one could have been much worse from kidney trouble than I was. My back was lame and pained me constantly. My heart was affected and I was extremely nervous and even the rustling of a newspaper in an adjoining room would irritate me greatly. Other remedies had failed to help me, but it didn't take Doan's long to help me. I recommend this remedy to every opportunity."

Above statement given February 26, 1908, and on February 27, 1913. Mrs. Speck said: "I have had very little to complain of in the way of kidney trouble for a long time. I have used Doan's Kidney Pills once in a great while since as a preventive and they always made me feel better generally." 60c. at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. COUNCIL MEATS
Better Meats That Cost Less
No Waste · No Ice Needed
Always Tender
Ready-Cooked To Perfection

Stop Buying Water- at the price of meat

A GOODLY part of the meat you buy is water, and when the meat is cooked much of the water in it—for which you have paid—goes off in steam. The water is just so much more waste for which you pay, just like the uneatable trimmings.

Council Meats in cans are ready-cooked—the water isn't counted in the weight for which you pay. Neither is there any waste, for every bit of a can of Council Meats is good nutritious food.

And it is so easy to prepare Council Meats!

Take Veal Loaf for instance. To prepare it yourself at home means a good bit of work and trouble and time. But when you buy Council Veal Loaf it is all ready-cooked and it only has to be warmed in the can—opened—sliced—served. All the other Council Meats are just as easily served.

"SPIRITUALISM" LECTURE SUBJECT

MIRACLE WORKING NOT PROOF THAT THE POWER CAME FROM GOD

"The working of miracles and the wonderful manifestations of spiritualist mediums is not, in itself alone, proof that the power promoting them is from God," said Evangelist O. L. Denslow in his lecture at the Bible Chautauqua night, entitled "Spiritualism". Over five hundred people were present manifesting an intense interest in the lecture and joining heartily in all parts of the service.

Continuing, Mr. Denslow said in part as follows: "Let us keep in mind that there are two miracle working powers in this world, one from above and the other from beneath, so the working of miracles is not absolute proof that the power behind it is from God." In Matthew the 24th chapter and the 24th verse we are informed by Christ himself that false Christ's and false prophets shall show great signs and wonders and shall endeavor, if possible, to deceive the very elect. So, need it be any surprise that many so-called Christ's and prophets and wonderworking beings are in the world?

"Many people have the mistaken idea that the Devil is a dragon-like creature, with horns and hoofs, a forked tail carrying a pitchfork around with him, but, my friends such a belief is all nonsense. The Devil comes in the most sanctimonious and pious manner in the ways one would least expect. We learn in the Bible that Satan was once in heaven, but became jealous and dissatisfied with the government of God and started a rebellion with one third of the heavenly host on his side. I waged a war in heaven, but was defeated and cast out to this earth. We are told in Rev. 12:7. We understand from reading Rev. 5:11 that there are at least 100,000,000 angels in heaven, so according to that, at the most conservative estimate the Devil has on his side one third of that number or 33,333,333 imps assisting him in his evil work of damnation.

"Again, John the Revelator in the 16th chapter and 14th verse of his book tells us that the 'spirits of Devils will work miracles'. In Isaiah 8:20 we are given a formula by which we can test a wonderworking power. According to the law and to the testimony. So, if they do not come up to the law and to the testimony, they are false or from the opposite power than God, or the Devil. In the first place they lie. Spiritualist mediums claim to carry on communication with the dead. The 146th psalm 3rd and 4th verses tells us that in the very day a man dies his thoughts perish and Ecclesiastes 9:5, 6, 10 informs us that the dead know not anything. In the face of these texts who dares come forward and say that the dead can communicate with the inhabitants of this world.

"I am sorry to say that the Devil or one of his imps has been following me around all my life and knows all about me and I dare say that everyone in this audience can testify to the same, that Satan has kept a pretty close watch upon your doings.

"Paul tells us in 2 Cor. 11:14 that the Devil can come as an Angel of light. If Satan can impersonate an angel of light, let me ask, can he not impersonate some friend or loved one of yours who has gone to rest in death?

"The only safe-guard we have from being swept into this Devilish delusion of Spiritualism is the diligent study of God's word or the Bible. First, believe it, then study it and most important of all live up to its teachings and heed its warnings."

SON CLEANING REVOLVER. BULLET KILLS MOTHER

(International News Service) NEW YORK, July 13.—While Ad-phonse Cannella, nineteen, was being arraigned in a Magistrate's Court in Brooklyn on a charge of violation of the Sullivan law, his mother, Mrs. Anna Cannella, died in the Holy Family Hospital.

She had been shot by an automatic pistol that was in the son's hand. It was said he was cleaning the gun at the time and that it was discharged accidentally.

AGED COUPLE KILLED BY ENRAGED HEIFER

(International News Service) COUNCIL BLUFFS, Ia., July 13.—

Trying to take a young calf from its mother resulted in the death of Mr. and Mrs. Andrew Liddell, wealthy pioneer farmers of Treynor, Iowa, near here.

The aged couple, both of whom were more than eighty years old, were so badly gored by the enraged cow that they died before a physician could be summoned.

A drowsy, half-sick, discouraged feeling is caused by a torpid liver and impurities in the stomach and bowels. Prickly Ash Bitters is a prompt and efficient remedy. Men who work need its cleansing and stimulating effect. Price \$1.25 per bottle. Sold by all druggists.—Adv.

It Takes Two Blades To Make a Shears

Saving is like a one-bladed shears. Unless our money is used to buy something it is not serving its purpose.

Money itself is merely a medium by which we trade something of a certain value for an article of greater or at least equal value. If a man wants a pair of shoes he goes to work. As his employer, probably is not in the shoe business he gives the man money and with it the shoes are bought. But actually, a certain amount of labor and time were GIVEN IN EXCHANGE or traded, for the shoes.

The money was simply the means by which the exchange was made. In the money ITSELF there was no value ---it REPRESENTED value.

A diplomat is welcomed with pomp and ceremony, not for HIMSELF but for the COUNTRY he REPRESENTS. And only when he performs his diplomatic duties does he serve his purpose.

Earning more money, providing an income---is the purpose of our savings. If they are put into shares of PREFERRED STOCK OF ALABAMA POWER COMPANY they bring an income regularly every three months. \$5.00 starts you---an easy partial payment plan does the rest. Send the coupon to

Garth Heights are only taxable *ONE TIME* as they are just outside the corporate limits. Garth Heights allows a great many other privileges that are not permitted inside the corporation. We don't have to tell you, you know them too well. Mr. H. C. L. has already informed us all, and he is a good and thorough informer.

Suppose you had invested in Birmingham a few years ago when Norwood, South Highlands and Mountain Terrace were being opened up? Those additions attracted no more attention when they were first opened up than Garth Heights is attracting now, yet only a few days ago, the writer heard a Birmingham citizen lamenting over "what he could have done" when those opportunities were first offered.

Three years hence, Wilson Dam will have been finished, our new system of highways will be well under way, and the Tennessee Valley will be one veritable bee hive of industry, so the man who is shrewd enough to *HEAD IN* now will be *LUCKY ENOUGH* to cash in when the *GRAVY TRAIN* runs, and it won't be long to wait.

Prosperity Reigns in the South; The Government Chart on conditions of the country, shows the Tennessee Valley to be the most favored spot. Cotton prospects have not been so good for several years and the valley will grow its own corn and have corn to sell. The farmer is full of ginger and it looks as if he were going to have the laugh on the whole push, but he will spend his money with the butcher and he with the baker and he with the candlestick maker, so everybody will have a finger in the pie.

A big-scale road test on 3,200 tubes

*How Firestone puts the miles in—and then proves it
—not at YOUR expense*

No other tubes in the world are road tested on so big a scale as Firestones. The Yellow Cab Company of Chicago uses Firestone Tubes exclusively on its 800 taxicabs. The service of these tubes is checked constantly—improvements and developments are arrived at.

By close watching of a large number of tubes in service—not confined to isolated instances—the conclusions are accurate and definite.

Firestone puts the best in materials into tubes by

establishing purchasing experts at Singapore, center of the world's rubber market. Firestone puts the best in workmanship into tubes by organizing the crack manufacturing organization of the industry on a profit-sharing basis.

And then subjects the finished product to this big-scale road test—in order to get you more for your tube money and more miles out of your tires. And yet Firestone Tubes cost no more than the ordinary kind.

HITS AND MISSES

By BARRETT SHELTON

And the mighty "Bambino" is loose again. A national holiday will be declared for all members of the pitching staff of rival outfits falling before the clubbing Babe for the two weeks. "Oh, there's no use for us to try and stop such a man," declare all the A. L. hurlers. These same hurlers declared that the Babe had done his durndest in the 1919 roll call and that he would never be listed as a hero of the bludgeon again. Another parable asserts itself and history repeats. Babe is climbing right next to a certain Mr. Speaker who for many past decades has rushed Tyrus for the top rung. The "busting bambino" thinks naught of curves, fast ones and those that float up. He simply does the shimmy with his shoulders and the ball gives a final account somewhere on the circuit of the American League. Cactus Cravath has a record of 29 non stop blouts for one season, as has the erstwhile hurler. Cactus has also looked forward to the day when the headlines shove his mug to the front with the obituary underwritten, "Folks this is the guy who made Babe read and weep," say not so aged Cactus. Babe has five years yet and he has a club mark of 73 fence busting episodes now pushed on his career.

Burleigh Grimes, one time Baron, will now stake the race of his life and

his apponent is one muchly spoken of Methuslah who attains a high water mark in the Text. Burleigh has heard that it takes an alligator at least 270 years to attain its full growth and Burleigh has made the purchase of one so he can see whether the gentleman who jawed thusly is a student of the Gospel or is the ring leader of the Ananias Club. Grimes says that he has a long time yet to pass the milestones by and he intends to swear out a warrant for the soothsayer, if he is not correct.

Frank G. Menke in the Birmingham News is hot after those that declare that the Champ of the heavies was a draft dodger. Mr. Menke asserts that the one thing of Dempsey's career that should wipe the stain from his name is that while he fought "Big Jess" at Chicago for no gain, the one time Kansas Champ was pulling down \$30,000 for what Jack termed a "charity" entertainment. Yet the world said nothing of Willard and cursed the man who has gained the right to wear the heavy weight crown when all other American fighters have failed. Perhaps "Big Jess" remembered Jack's wing that he met do disastrously one hot July 4 at Toledo.

Home Made VS. "ASSEMBLED" TEAMS

They say that John J. McGraw has decided to return to the old, sound system of developing his Giants from the abundant raw material instead of buying them on the hoof from other clubs.

McGraw is combing the tall grass for young players as it has not been raked in years by his scouts. He will inspect a large consignment of green talent next Spring and will carry as much of this material as the league regulations will permit.

Back in the golden days of the Giants many building athletes were carefully nurtured by McGraw for months before bursting into radiant bloom. George Burns sat on the bench for a year before his opportunity came. Dave Robertson, Arthur Fletcher, Charley Herzog, Ross Young, Jeff Tesreau and Earl Smith were a few McGraw-made players who were developed either on the bench or by some minor league manager closely associated with McGraw.

The Giants of those days were colorful. They reflected the spirit of a great leader and, in our opinion, the most progressive baseball director the game ever knew.

One More World's Championship

McGraw is not given to discussing his baseball ambitions, but he cherishes a desire to win one more world's championship before he steps out as a field leader. He failed dismally in 1911 and 1913, and he was outlucked in 1912 and 1917. But we believe that if he can rebuild his team

with fresh, young material within the next two years, he will step out on the coaching lines again and be the McGraw of old.
